ONLINE TUTORING

ONLINE TUTORING

Harrow School Online offers high quality online tutoring provision. We combine outstanding teachers with the latest online learning technology to give pupils every chance of success.

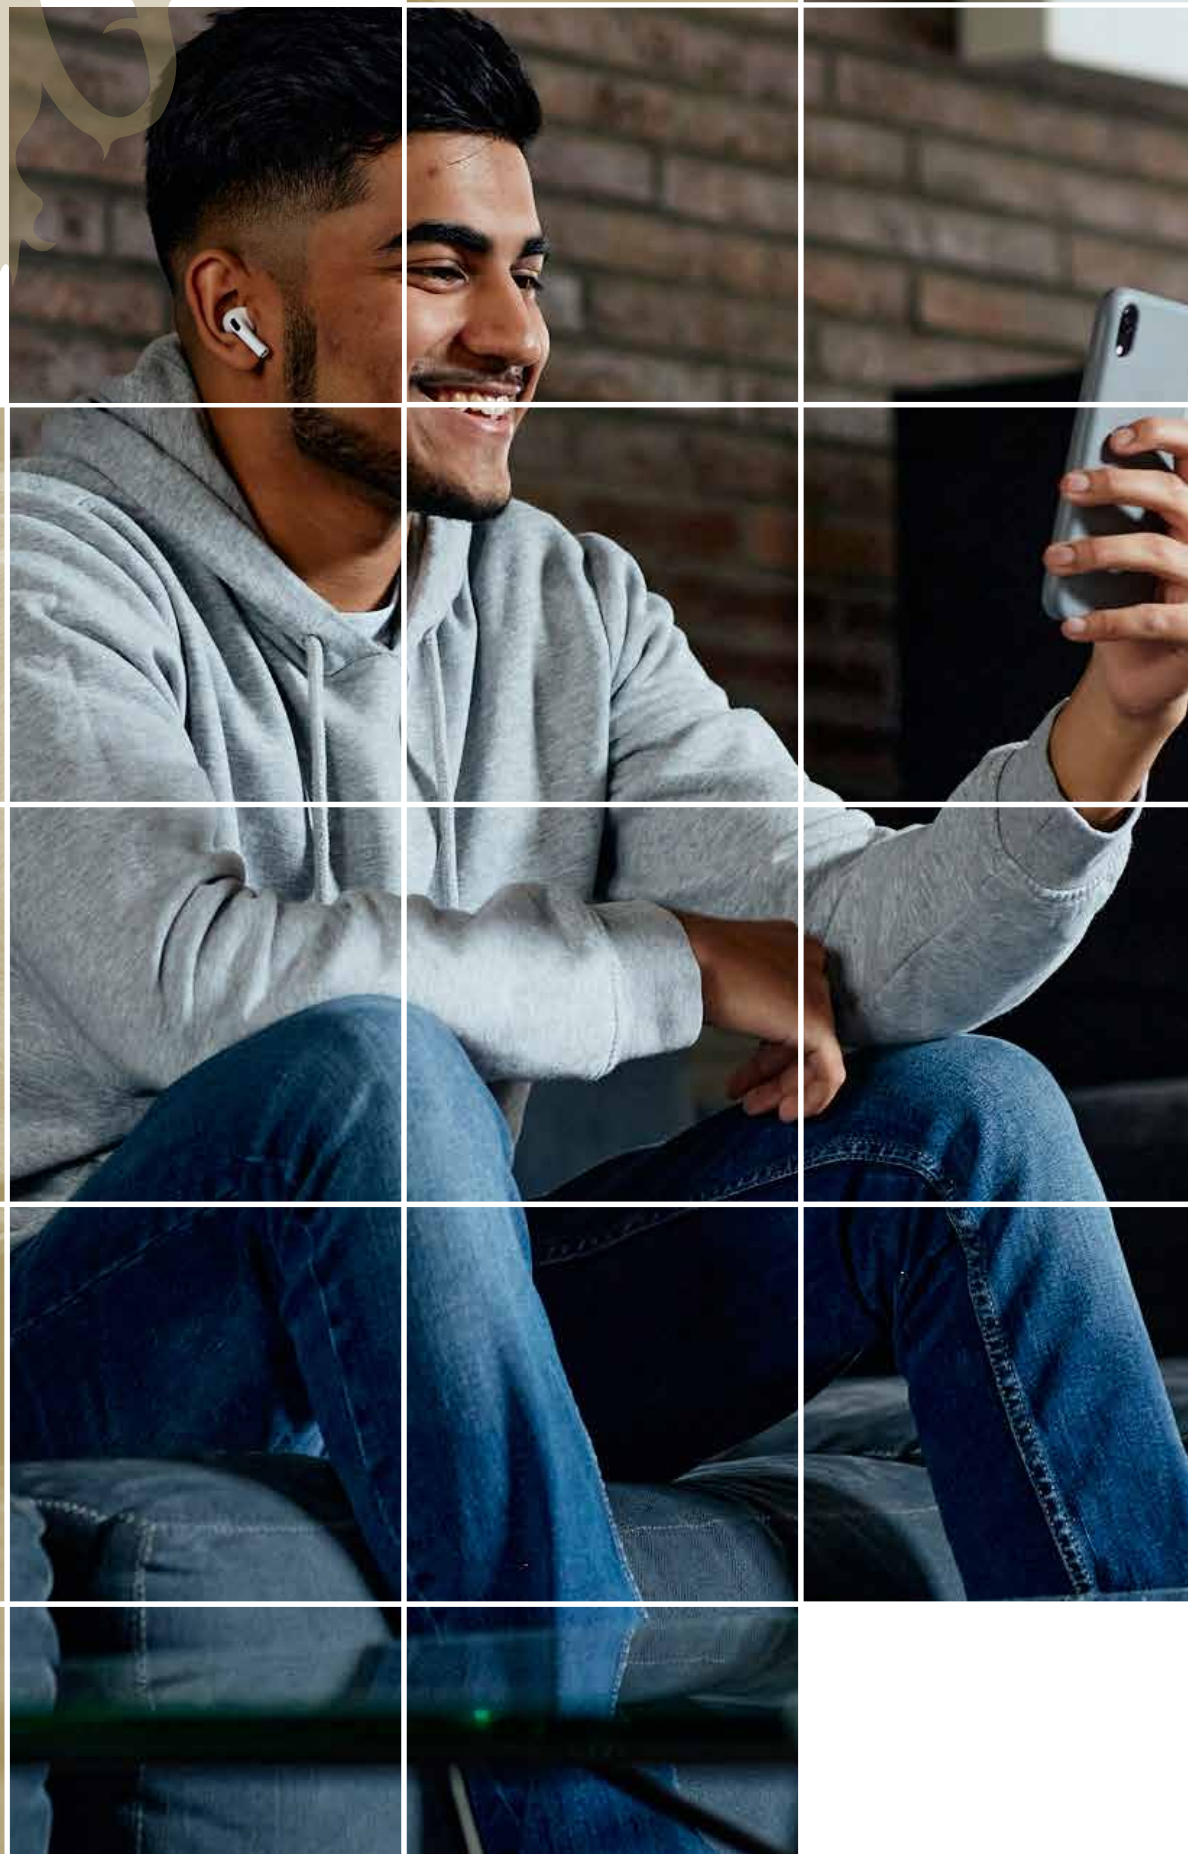

Our tutoring programme is aimed at pupils at secondary school who would like to make focussed progress in a particular academic subject with the support of an expert tutor. It can be particularly helpful for pupils who are working towards examinations, including GCSE and A Level exams.

SUBJECTS

Our engaging tutoring sessions are available in a wide range of subjects including Maths, Sciences, Economics, Business, Psychology, Sociology, Geography, French, Spanish and English Literature.

Our tutors work with pupils up to A Level and are also able to support pupils who are preparing for university admissions exams such as BMAT and UCAT. We may also be able to offer options for additional subjects.

PROGRAMME CONTENT AND STRUCTURE

We offer two types of tuition programmes; ten lesson packages and academic year packages. Each programme is tailored to the individual needs of the student and will typically comprise a full suite of lesson materials and assessments. Our online sessions will equip your child with the tools and resources to enhance their learning, all in the comfort of your own home. Our tutoring programme can be structured to support students with the transition from GCSE to A Level, prepare pupils for specific examinations, or simply to complement their current school syllabus and expand knowledge of their chosen subject.

TEN LESSON PACKAGES

Each programme consists of a minimum of 10 interactive sessions of forty-five minutes led by expert teachers with extensive experience and proven track records in their teaching and tutoring career.

The general structure that we follow for our ten-lesson packages is:

Session 1: Needs analysis with the tutor and student to identify goals and map out what will be covered in the following sessions. A summary will be provided after this meeting.

Sessions 2-8: Tutoring as per the course outline will focus on topic and knowledge building to achieve learning goals. Homework will normally be set alongside the sessions to reinforce learning, which the tutor will review and mark.

Session 9: Focus on exam preparation or reviewing progress. Pupils will be asked to complete a test which the tutor will then review and mark before session.

Session 10: Detailed review on the pupils progress, based on homework, tutoring sessions, and the test taken in the previous session.

PRICE

Our ten-lesson packages are priced at £85 per session, with a minimum programme of 10 sessions. This fee includes one-to-one sessions with our expert teachers, course materials, which may include, if relevant, mock exams and self-study resources, and regular progress reviews as detailed in the structure above.

ACADEMIC YEAR TUITION

For pupils who want on-going tuition throughout the academic year, we offer term-time tuition programmes for one or two forty-five minute lessons per week. Our term-time tuition programmes can be used by pupils who require supplementary tuition to support their learning or by pupils who are self-studying for a qualification and would benefit from the structure and guidance of regular tuition.

Our academic year runs for 34 weeks from the start of September through to the start of July, with holidays at Christmas and Easter, and half term breaks within each term. Pupils in exam years can chose to finish their academic year early and take additional revision and exam practice lessons in the run up to their examinations.

Pupils taking academic year tuition receive half termly progress reports and biannual parent consultation meetings. Their tutor is able to support with a reference for university application.

PRICE

Academic year tuition is priced at £2,790 per year for one lesson per week and £5,400 for two lessons per week. Payment can be taken monthly across ten months (at (£279 or £540 per month) or termly at £930 or £1,800 per term.

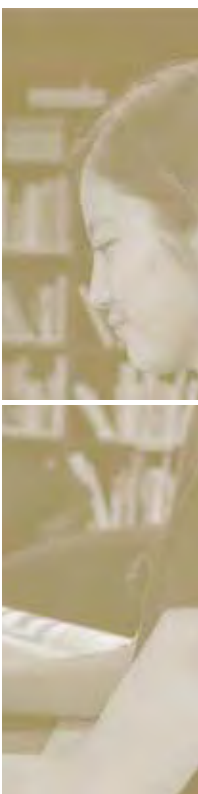

This fee includes one-to-one sessions with our expert teachers, course materials, including mock exams and self-study resources, half termly reports, UCAS references and parent consultations. Please note that we do not enter pupils for examinations as part of our academic year tuition programmes.

APPLICATIONS

Applications are welcome from academic pupils who are eager to learn and can successfully navigate an online learning programme.
